PROFESSIONAL WOOD FLOOR FINISHES

FLOOR FINISH DIVISION

GLITSA FLOOR FINISHES

NEVER COMPROMISE

Glitsa floor finishing products have evolved through a rich history since the early 1950s. Glitsa has been a name synonymous with quality in the coatings and wood finishing industry, Glitsa boasts a legacy of excellence. In 2023, Glitsa was acquired by Gemini Industries, Inc., an employee owned company that is dedicated to maintaining a superior level of quality and an unrivaled customer experience.

Conversion Varnish Wood Floor Finishes

Glitsa's conversion varnishes, also commonly referred to as Swedish finishes or acid-cure finishes, are the complete package; The most durable hardwood floor finish. It brings out the natural color of your wood flooring with unmatched depth and clarity allowing you to see your hardwood floor's natural grain definition more clearly.

Waterborne Wood Floor Finishes

Glitsa's waterborne finishes are formulated with durability and beauty in mind. We test our waterborne finishes for durability, adhesion, chemical resistance, and excellent application properties. Maintaining Glitsa's high standards for all our wood floor finish lines is a must. Glitsa's line of waterborne finishes include one- and two- component systems in a variety of sheens as well as an ultra low "Bare" sheen finish.

Oil Polyurethane Wood Floor Finish

Glitsa's oil-modified polyurethane, Glitsa Poly 500™, is formulated to provide excellent durability and stain resistance for your wood floors.

Glitsa Poly 500 delivers a lighter, warm tone compared to traditional, highly yellowing oil-based polyurethanes and has a faster cure time than many other oil-based polyurethanes.

All our products are developed to be the best in their categories.

LENMAR®

LENMAR FLOOR FINISHES

THE ULTIMATE IN PERFORMANCE FOR FINE WOOD FINISHES, LENMAR® HAS BEEN A TRUSTED BRAND FOR OVER 65 YEARS.

Lenmar is uniquely designed for professional wood floor contractor interested in providing their client with superior wood finishing solutions. Each Lenmar product is carefully formulated and backed by years of advanced wood coatings research to provide lasting beauty and protection.

Benefits

- Superior Flow for a smooth self leveling finish
- Exceptional solid for maximum build
- Tough, durable film that resists household chemicals, marring and scuffing when fully cured

Recommended Uses

- Gymnasiums
- Commercial Floors
- Interior Hardwood Floors

Interior Wood Floor Coatings

Lenmar interior wood floor finishes are comprised of polyurethane floor finishing systems, in addition to sealers and prep products. Lenmar wood floor products include self-leveling, abrasion-resistance and fast-drying properties, all with superior durability.
